What is RSS?

(“Really Simple Syndication”)

- Can be used to notify Users of Changes of a certain Website.
- Can be used to display Content from one Website on another. (e.g. show EFUC-News on GSTT & NODIG Websites)
- Is used by all major News-Sites and so called “Weblogs”.
- Is an open standard (XML).

What is RSS?

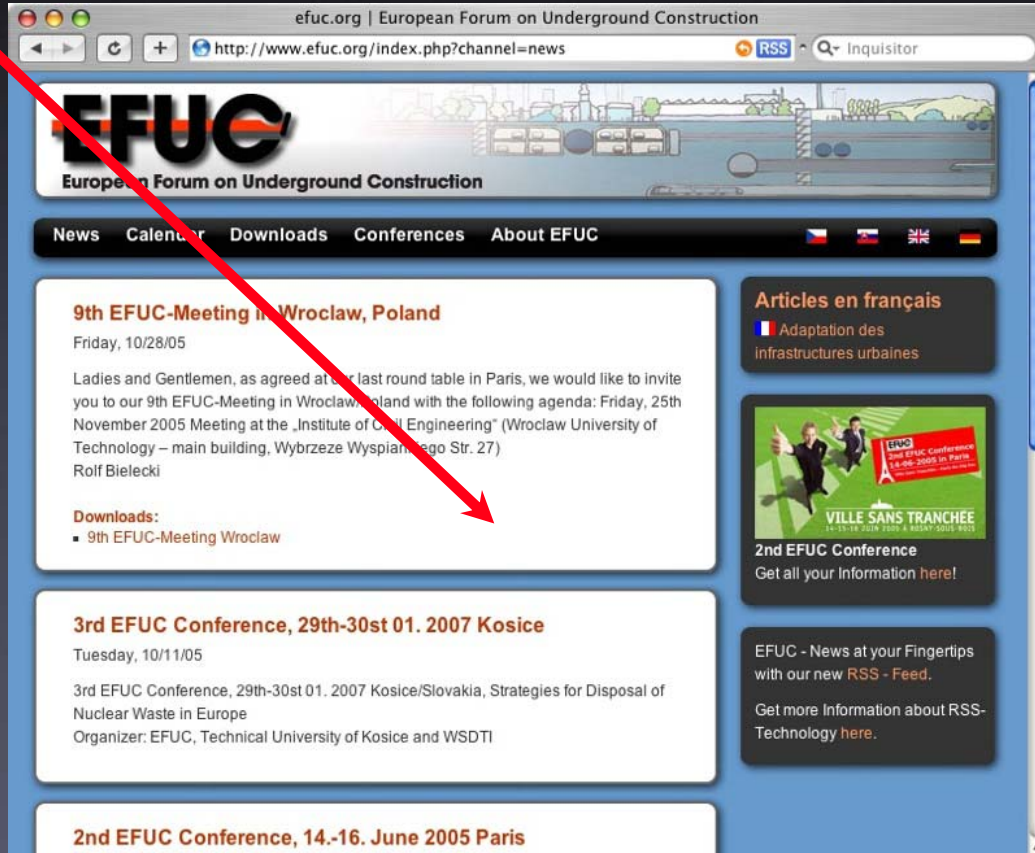

(“Really Simple Syndication”)

- “No Effort” - Distribution of Content
- Used by every major News-Company (eg. BBC, CNN, NBC...)
- XML Format for Exchanging News
- Automatically Published by Author of News
- Used by other Websites and Stand-Alone-Clients

RSS

That's You!

Loss of Time In Publication Process

Solution: Content Management System

- CMS gives Editors of Documents the possibility to publish them directly on the Web without further Know-How.
- Supports RSS-Technology (“Really Simple Syndication”)

CMS

- Integrated Content Management in EFUC Website
- Allowed Users can log in and add News, Dates, Documents to website
- No Programming Skills required
- 5 Easy Steps (see next slides)

1. Login

2. Add Element

The screenshot shows the website for the European Forum on Underground Construction (EFUC). The browser address bar displays <http://www.efuc.org/index.php>. The website header features the EFUC logo and a navigation menu with links for News, Calender, Downloads, Conferences, and About EFUC. A language selection bar includes flags for Czech Republic, Slovakia, United Kingdom, and Germany. A white bar below the navigation contains the text "Neues Element Hinzufügen | Logout", with "Neues Element Hinzufügen" circled in red. The main content area includes a section for the "9th EFUC-Meeting in Wroclaw, Poland" dated Friday, 10/28/05, and a sidebar with "Articles en français" and a promotional banner for the "2nd EFUC Conference 14-06-2005 in Paris".
