

**X INTERNATIONAL CONFERENCE**  
**UNDERGROUND INFRASTRUCTURE OF URBAN AREAS 2008**  
**WROCLAW 22 - 24.10.2008**

**organised by**

WROCLAW UNIVERSITY OF TECHNOLOGY  
INSTITUTE OF CIVIL ENGINEERING

&

POLISH GROUP ITA - AITES

&

PSTB – POLISH SOCIETY FOR TRENCHLESS TECHNOLOGY

**THE CONFERENCE IS ORGANISED UNDER THE PATRONAGE**

ITA-AITES – INTERNATIONAL TUNNELLING ASSOCIATION

&

EFUC – EUROPEAN FORUM ON UNDERGROUND CONSTRUCTION

&

DEPUTY MAYOR OF WROCLAW CITY

**CONFERENCE GOALS AND SUBJECT MATTER**

The aims of the conference are to create a forum for the exchange and transfer of experience and to induce a discussion on topics related to the general theme of tunnels and subterranean urban infrastructure including geotechnical and urban planning. In particular, the conference will be focused on such underground structures and utilities like: - tunnels (roads tunnels, rail tunnels, metro); - sewerages, water mains and other pipelines; - garages. It is vitally important to involve and put in touch a wide circle of researchers, investors, engineers and contractors. It is hoped the conclusions drawn from the event will cover all the crucial issues. Discussion seems to be essential in the face of the immediate necessity of adapting Polish subterranean structures and infrastructure to contemporary international standards. This requires specific matters to be placed under broad consideration in their technological and legal aspects.

We plan to organize the technical exhibition during the conference. This will give the opportunity to show different products and technologies to conference participants and students from Wroclaw University of Technology. There are about 33,000 students studying at our university.

## CONFERENCE INFORMATION AND PROMOTION BOARD

Andrzej KOLONKO phone: 0048 71 320 29 14, fax: 0048 71 328 18 89 mobile: +48 507043537 e-mail: andrzej.kolonko@pwr.wroc.pl	Marta DUDEK phone: 0048 71 320 29 65, e-mail: marta.dudek@pwr.wroc.pl
